YOU CONTROL YOUR PROFILE

- **Private, always:** your sign-in email, your private contact details, and anything you share for verification.
- **Shown by default:** a general connection label only, such as your branch, Military Spouse, or simply Military-connected creator. More specific wording, such as veteran or currently serving, appears only if you choose it.
- **Yours to change:** edit any time in your Creator Studio, and request a correction or removal whenever you want, no reason needed.
